

ECE 6360 Parallel and Heterogeneous Computing

Homework 2: Parallel Algorithm Vocabulary

Define the following terms in 1-2 sentences:

SIMD

SPMD:

cache:

locality:

bandwidth:

latency:

A large, empty rectangular box with a light gray background and a thin black border, intended for the user to write their answer to the latency question.

fetch:

A large, empty rectangular box with a light gray background and a thin black border, intended for the user to write their answer to the fetch question.

Describe how caching relates to locality? How should you organize your program to take advantage of caching?

A large, empty rectangular box with a light gray background and a thin black border, intended for the user to write their answer to the caching question.
